

Workforce Specialists Analytics Briefing

Volume 13

April 2018

Logistics

- **Job growth again** in the sector based on April numbers. But as noted before, growth rates are slowing and worth monitoring.
- It appears [warehouse space supply has caught demand](#) nationally, so as e-commerce continues to grow quickly, capacity bottlenecks should ease.

- Good thing because logistics labor-intensive [ecommerce growth is accelerating](#), now representing nearly half of *all* retail sales growth.
